

# NATIONAL BREAST CANCER COALITION FUND

## *Guide to Quality Breast Cancer Care*

## *Our Vision*

The National Breast Cancer Coalition Fund (NBCCF) is made up of millions of breast cancer activists dedicated to ending breast cancer.

We wrote this Guide to help breast cancer patients. It is our best advice about getting quality breast cancer care. These are things we think you should know before making choices about your care.

We hope you will take the time to read this Guide and learn about all your choices. NBCCF believes this is time well spent. It will help you make choices that are right for *you*.

We believe quality care is made up of six core values:

- **ACCESS** to all the care you need when you need it
- **INFORMATION** that is complete and correct
- **CHOICE** about your doctors and your treatment
- **RESPECT** in all parts of your health care
- **ACCOUNTABILITY** in all parts of the health care system
- **IMPROVEMENT** in the system so breast cancer care continues to get better

Together, these values make up NBCCF's vision of quality breast cancer care.
